PUBLIC NOTICE

PUBLIC NOTICE
Section 15.1-179 of the Code of Virginia - The Appomattox Town Council wishes to notify the citizens of the proposed Ordinance:

ORDINANCE

The Town of Appomattox is required by the 1977 Safe Water Drinking Act to construct, improve, enlarge, operate, and maintain a sewage disposal system with all necessary sewers, conduits pipelines, pumping and ventilating stations, treatment plants and works, for the purpose of relief from pollution and for improvement of conditions affecting public health. A new sewage control system and the improvement of existing systems is being required by the Environmental Protection Agency, (hereinafter referred to as EPA) and the State Water Control Board and without a new system and improvement of the existing system additional connections to the existing system for large users would not be possible.

Be it therefore enacted that the Town of Appomattox, under the provisions of Article VII Sections 10 (a) (2) of the Constitution of Virginia and Section 15.1-320, 322 and 323 of the Code of Virginia, borrow $800,000 for the purposes of establishing and constructing a sewage disposal system to be known as the Appomattox Regional Waste Water and Sewage Disposal Facility and for the improvement of the existing system and that such indebtedness be financed by the issuance of Interest Bearing Bonds in the maximum amount of $800,000 by the Town of Appomattox. The bonds and the interest thereon shall be paid from the Revenue of the sewage disposal system through charges to customers using the system and whenever such sewage disposal system should fail to produce sufficient revenue for the cost of operating and administration, including the interest on such bonds and the cost of insurance against loss by injury to persons or property, and an annual amount to be placed into a sinking fund sufficient to pay at or before maturity all such bonds, then such expenses shall be paid from ad valorem taxes or general revenue of the Town of Appomattox.

The maximum interest rate that will be paid on the bonds shall not exceed 6 per cent and the money realized from the bonds will be used for the construction, improvement, maintenance of a sewage disposal system with all necessary sewers, conduits pipelines, pumping and ventilating stations, treatment plans and works, and for the purpose of the issuing of bonds and expenses pursuant thereto and for the purpose of improving the existing wastewater and sewage facility. The bonds shall be for a maximum term of thirty-five (35) years or less.

Under the plan to be put into effect upon the construction of the sewage disposal system as aforesaid each existing user will experience an initial minimum increase of $11.50 per month plus possible additional future increases. All new customers shall pay an initial hookup fee and thereafter pay a user fee that will be the same as for existing customers.

Be it further enacted that the question "whether the debt shall be contracted and whether the money to construct the sewage system should be borrowed and the bonds issued" shall be submitted to the qualified voters of the Town of Appomattox at a special referendum pursuant to law. 7-12-2tc
